

Synergy

ENERGY

Natural resistance for your soil

NANO - FERTILIZER

PRODUCT SPECIFICATIONS

Composed of powerful elements that are used for many years in nature. Synergy Contains Guarana extract that finds its origin in nature. Guarana is described as a stimulant medicinal herb and is widely used. Global Green Pact applies it in a synergistic recipe that can ensure better soil resistance for more vital-healthy growing conditions. The power is already hidden in nature. Synergy can provide a stronger crop that can better exploit its own defenses. If plants are be attacked the naturally produce their own build in defense system. These secondary plant substances saponinen and flavors provide a small amount of already strong self defense. Synergy contains multiple herbal extracts, hydrolyzed oils and fertilizers ensure so a powerful and economically efficient product. Synergy is a product that contributes to a natural resilient crop.
